Canada ’ s automotive "Dr. Phil" says there ’ s never been a better time to buy a new car or truck. For deals on wheels, 2013 will be a "perfect storm." There ’ s never been a better time to buy a new car or truck, thanks to a stronger Canadian dollar, a worldwide recession driving prices downward, and a more competitive Japanese auto industry that ’ s still reeling from a series of natural disasters. In addition to lower prices and more choices, 2013 car buyers will see more generous cash rebates, low financing rates, bargain leases, and free auto maintenance programs. Buy, sell, or hold? Which cars and trucks are "wallet-friendly" and can easily last 15 years? Which vehicles offer the most features to best accommodate senior drivers? Do ethanol and hybrid fuel-saving claims have more in common with Harry Potter than the Society of Automotive Engineers? Is GM ’ s 2013 Volt electric car destined to become an electric Edsel? These questions and more are answered in this informative guide.

The Airbus A380 is the world ’ s most recognised and most talked about airliner since the Boeing 747 and Concorde appeared in the skies in the late 1960s. Designed to challenge Boeing’s monopoly in the large-aircraft market, it made its first flight in April 2005, entering commercial service two years later with Singapore Airlines. This jet has become so popular that every four minutes--24 hours a day, seven days a week--an A380 is taking off or landing somewhere in the world. There is no other development in recent aviation history to rival this remarkable aircraft.

Michael Christoforidis is widely recognized as a leading expert on one of Spain's most important composers, Manuel de Falla. This volume brings together both new chapters and revised versions of previously published work, some of which is made available here in English for the first time. The introductory chapter provides a biographical outline of the composer and characterisations of both Falla and his music during his lifetime. The sections that follow explore different facets of Falla’s mature works and musical identity. Part II traces the evolution of his flamenco-inspired Spanish style through contacts with Claude Debussy, Maurice Ravel and Igor Stravinsky, while Part III explores the impact of post-World War I modernities on Falla’s musical nationalism. The final part reflects on aspects of Falla’s music and the politics of Spain in the 1930s and 1940s. Situating his discussion of these aspects of Falla's music within a broader context, including currents in literature and the visual arts, Christoforidis provides a distinctive and original contribution to the study of Falla as well as to the wider fields of musical modernism, exoticism, and music and politics.
